BREXX/370 V2R4M0

BREXX has been developed and supported by

Vasilis.Vlachoudis@cern.ch

BREXX/370

BREXX/370 is a ported version of BREXX to IBM's operation system MVS 3.8j. Jason Winter and Jürgen Winkelmann ported BREXX initially to MVS3.8j. The BREXX/370 releases have been created and are supported by the BREXX/370 team: Mike Grossmann und Peter Jacob.

BREXX is licensed under the GNU General Public License v2.0

See https://github.com/vlachoudis/brexx/blob/master/COPYING

All rules mentioned above apply to BREXX/370!

BREXX/370 documentation

The essential BREXX documentation applies to BREXX/370:

https://ftp.gwdg.de/pub/languages/rexx/brexx/html/rx.html

Additional documentation is supplied together with the BREXX installation zip file, the BREXX/370 library is contained in the XMIT file:

- README.pdf   this document
- BREXX370_Installation_Guide_V2R4M0.pdf   the installation document
- BREXX370_Users_Guide_V2R4M0.pdf   BREXX/370 User's Guide
- BREXX370_Formatted_Screens_Guide_V2R4M0.pdf   Formatted Screens User's Guide
- BREXX370_VSAM_Guide_V2R4M0.pdf   VSAM User's Guide
- BREXX370_Migration_Notice_V2R4M0.pdf   Migration Notice, new functionality and changes on existing functions
- BREXX370_V2R4M0.XMIT   XMIT File containing BREXX modules and Installation JCL

For consistency reasons all previous migration notices are also part of the zip file

- BREXX370_Migration_Notice_V2R3M0.pdf   Migration Notice of previous release
- BREXX370_Migration_Notice_V2R2M0.pdf   Migration Notice of second release
- BREXX370_Migration_Notice_V2R1M0.pdf   Migration Notice of first release

Please install according to the Installation Guide.
